Software:

Practice and Experience

CONTENTS

Volume 42 Number 1 **January 2012**

Editorial
R. N. Horspool 1

Language design and analyzability: a retrospective
B. G. Ryder and B. Wiedermann 3

An assistance tool employing a systematic methodology for GCC retargeting
K.-W. Lin and P.-S. Chen 19

Evaluation of a high-volume, low-latency market data processing system implemented with IBM middleware
Y. Park, R. King, S. Nathan, W. Most and H. Andrade 37

Design and implementation of an adaptive Web2.0 QoS-based home appliance control service platform
C.-M. Huang, H.-H. Ku, Y.-C. Chao, C.-W. Lin and Y.-W. Chen 57

Towards evolvable software architectures based on systems theoretic stability
H. Mannaert, J. Verelst and K. Ven 89

A study of irreducibility in C programs
J. Stanier and D. Watson 117

Volume 42 Number 2 **February 2012**

Satisfying quality requirements in the design of a partition-based, distributed stock trading system
X. Yang, L. Zhao, X. Wang, Y. Wang, J. Sun and A. J. Cristoforo 131

A case study on business process recovery using an e-government system
R. Pérez-Castillo, I. García-Rodríguez de Guzmán, M. Piattini and Á. S. Places 159

Simple algebraic data types for C
P. H. Hartel and H. L. Muller 191

Towards a goal-driven approach to action selection in self-adaptive software
M. Salehie and L. Tahvildari 211

Role-play virtual worlds for teaching object-oriented design: the ViRPlay development experience
G. Jimenez-Diaz, P. A. Gonzalez-Calero and M. Gomez-Albarran 235

Short Communication
PPM compression without escapes
P. M. Fenwick 255

Volume 42 Number 3 March 2012

Towards reusable SLA monitoring capabilities
S. E. Parkin and G. Morgan 261

A methodology for transparent knowledge specification in a dynamic tuning environment
P. Caymes-Scutari, A. Morajko, T. Margalef and E. Luque 281

VM aware journaling: improving journaling file system performance in virtualization environments
T.-C. Huang and D.-W. Chang 303

Bringing Scheme programming to the iPhone—Experience
E. Bainomugisha, J. Vallejos, E. G. Boix, P. Costanza, T. D'Hondt and W. De Meuter. 331

A domain-specific modeling approach to realizing user-centric communication
Y. Wu, A. A. Allen, F. Hernandez, R. France and P. J. Clarke 357

Volume 42 Number 4 April 2012
Special Issue
Software Architectures and Application Development Environments for Cloud Computing
Guest Editors: Rajiv Ranjan, Rajkumar Buyya and Boualem Benatallah

Editorial
Special section: software architectures and application development environments for Cloud computing
R. Ranjan, R. Buyya and B. Benatallah 391

Towards an architecture for deploying elastic services in the cloud
J. Kirschnick, J. M. A. Calero, P. Goldsack, A. Farrell, J. Guijarro, S. Loughran, N. Edwards and L. Wilcock 395

A novel watermarking method for software protection in the cloud
Z. Yu, C. Wang, C. Thomborson, J. Wang, S. Lian and A. V. Vasilakos. 409

A trust-based noise injection strategy for privacy protection in cloud
G. Zhang, Y. Yang, D. Yuan and J. Chen. 431

The Cloud Adoption Toolkit: supporting cloud adoption decisions in the enterprise
A. Khajeh-Hosseini, D. Greenwood, J. W. Smith and I. Sommerville 447

Privacy preserving protocol for service aggregation in cloud computing
P. Wang, Y. Mu, W. Susilo and J. Yan 467

Virtualized HPC: *a contradiction in terms?*
G. Birkenheuer, A. Brinkmann, J. Kaiser, A. Keller, M. Keller, C. Kleineweber, C. Konersmann, O. Niehörster, T. Schäfer, J. Simon and M. Wilhelm 485

A dependency-aware ontology-based approach for deploying service level agreement monitoring services in Cloud
A. V. Dastjerdi, S. G. H. Tabatabaei and R. Buyya 501

Volume 42 Number 5 **May 2012**

A task-based and resource-aware approach to dynamically generate optimal software architecture for intelligent service robots
Y.-S. Park, H.-M. Koo and I.-Y. Ko 519

Efficient address space generation for an OPC UA server
A. Girbea, S. Nechifor, F. Sisak and L. Perniu 543

A component-based middleware platform for reconfigurable service-oriented architectures
L. Seinturier, P. Merle, R. Rouvoy, D. Romero, V. Schiavoni and J.-B. Stefani . . . 559

Manipulating Wi-Fi packet traces with WiPal: design and experience
T. Claveirole and M. Dias de Amorim 585

Privacy-aware shared UI toolkit for nomadic environments
R. B. Arthur and D. R. Olsen Jr 601

Web workload generation challenges – an empirical investigation
R. Hashemian, D. Krishnamurthy and M. Arlitt 629

Volume 42 Number 6 **June 2012**

A self-applicable online partial evaluator for recursive flowchart languages
R. Glück 649

POET: a scripting language for applying parameterized source-to-source program transformations
Q. Yi 675

Autonomous role discovery for collaborating agents
L. Ferrari and H. Zhu 707

High-quality pagination for publishing
P. Ciancarini, A. Di Iorio, L. Furini and F. Vitali 733

A high-performance sorting algorithm for multicore single-instruction multiple-data processors
H. Inoue, T. Moriyama, H. Komatsu and T. Nakatani 753

Volume 42 Number 7 **July 2012**
Special Issue
Rapid System Prototyping '10
Guest Editors: Kenneth B. Kent, Jérôme Hugues

Editorial to the special issue of rapid system prototyping '10
K. B. Kent and J. Hugues 779

Model-driven rapid prototyping with Umple
A. Forward, O. Badreddin, T. C. Lethbridge and J. Solano 781

Design, implementation and verification of MILS systems
J. Delange, L. Pautet and F. Kordon 799

Development of electric/electronic architectures for safety-related vehicle functions
M. Hillenbrand, M. Heinz, J. Matheis and K. D. Müller-Glaser 817

Validating quality attribute requirements via execution-based model checking
D. Drusinsky and M.-T. Shing 853

An asynchronous hierarchical router for networks-on-chip-based three-dimensional multi-processor system-on-chip
W. Lafi, D. Lattard and A. Jerrya 877

MpAssign: a framework for solving the many-core platform mapping problem
Y. Bouchebaba, A.-E. Ozcan, P. Paulin and G. Nicolescu 891

Current techniques and future trends in embedded system's virtualization
A. Aguiar and F. Hessel 917

Volume 42 Number 8 **August 2012**

Research Articles
Specification and Standardization of a Java Trusted Computing API
R. Toegl, T. Winkler, M. Nauman and T. W. Hong 945

An empirical evaluation of several test-a-few strategies for testing particular conditions
E. Y. K. Chan, W. K. Chan, P.-L. Poon and Y. T. Yu 967

A system for debugging via online tracing and dynamic slicing
V. Nagarajan, D. Jeffrey, R. Gupta and N. Gupta 995

A JAVA application framework for scientific software development
F. Fdez-Riverola, D. Glez-Peña, H. López-Fernández, M. Reboiro-Jato and J. R. Méndez 1015

Revisiting bounded context block-sorting transformations
J. S. Culpepper, M. Petri and S. J. Puglisi 1037

Invited Paper
Comparison of adaptive random testing and random testing under various testing and debugging scenarios
H. Liu, F.-C. Kuo and T. Y. Chen 1055

Volume 42 Number 9 September 2012

Research Articles
MicroMAIS: executing and orchestrating Web services on constrained mobile devices
P. Plebani, C. Cappiello, M. Comuzzi, B. Pernici and S. Yadav 1075

Lossless asymmetric single instruction multiple data codec
J. Wassenberg 1095

Holography: a behavior-based profiler for malware analysis
S.-Y. Dai, Y. Fyodor, M.-W. Wu, Y. Huang and S.-Y. Kuo 1107

Application of Deadlock Risk Evaluation of Architectural Models
A. Monzón, J. L. Fernández and J. A. de la Puente 1137

Execution profiling blueprints
A. Bergel, F. Bañados, R. Robbes and W. Binder. 1165

Volume 42 Number 10 October 2012

Research Articles
TinyVM: an energy-efficient execution infrastructure for sensor networks
K. Hong, J. Park, S. Kim, T. Kim, H. Kim, B. Burgstaller and B. Scholz 1193

Extending UML to model Web 2.0-based context-aware applications
I.-C. Hsu 1211

Architecture of a multiplatform virtual campus
A. Navarro, J. Cristóbal, C. Fernández-Chamizo and A. Fernández-Valmayor . . . 1229

Design and implementation of a multiagent stock trading system
G. Kardas, M. Challenger, S. Yildirim and A. Yamuc 1247

ROME4EU – A service-oriented process-aware information system for mobile devices
A. Russo, M. Mecella and M. de Leoni 1275

Volume 42 Number 11 November 2012

Research Articles
Measuring and reducing the impact of the operating system kernel on end-to-end latencies in synchronous packet switched networks
M. Welponer, L. Abeni, G. Marchetto and R. Lo Cigno 1315

Evolutionary algorithms for the multi-objective test data generation problem
J. Ferrer, F. Chicano and E. Alba 1331

A model-based framework for building extensible, high performance stream processing middleware and programming language for IBM InfoSphere Streams
B. Gedik and H. Andrade 1363

Heedless programming: ignoring detectable error is a widespread hazard
H. Thimbleby 1393

Vc: A C++ library for explicit vectorization
M. Kretz and V. Lindenstruth 1409

Erratum: A system for debugging via online tracing and dynamic slicing
V. Nagarajan, D. Jeffrey, R. Gupta and N. Gupta 1431

Volume 42 Number 12 December 2012

Research Articles
Using XQuery for problem solving
P. Kilpeläinen 1433

Flex-eWare: A flexible model driven solution for designing and implementing embedded distributed systems
M. Jan, C. Jouvray, F. Kordon, A. Kung, J. Lalande, F. Loiret, J. Navas, L. Pautet,J. Pulou, A. Radermacher and L. Seinturier 1467

Understanding design patterns—what is the problem?
G. El Boussaidi and H. Mili 1495

Survey Paper
Quality aspects for component-based systems: A metrics based approach
V. Kumar, A. Sharma, R. Kumar and P. S. Grover 1531
